

## **Best Practice 1: Upskilling and Placement Opportunities (UPO).**

### **Objectives:**

1. To enhance the skill set of students from all academic backgrounds.
2. To enhance the employability factor of students for them to face practical challenges.
3. To ensure high quality benchmarking of globally acceptable quality standards
4. To supplement the students' market readiness.

### **Practice:**

1. All departments of the college work in accordance with these Value-Added Courses that include SAP Training, Wealth Management, Web Development, Computer Applications, Tally, Graphic Designing, Advanced Excel and Python.
2. The courses are designed to bridge the gap between degree courses and vocational training of the student sector.
3. Apart from these courses, various other talks and departmental and inter-departmental lectures are organised to enrich a pool of knowledge and practice for the students.
4. The execution of these VAC witnesses a harmonious alignment with all academic departments.
5. The courses witness a great deal of cooperation and support from the student community who avail internship opportunities through completion of these courses.
6. Directives and guidelines are ensured by the Principal as per the commencement of these courses for all academic sessions at regular intervals.
7. The courses put up with the vision and mission of the college that believes in a peaceful synchronization between academic domain and placement invites for a holistic development of the students.
8. The students enrolled in these courses are informed well in advance of the course content, methodology and assessment that they will be required to take throughout the course.
9. A pool of companies and business firms, Vedanta Aluminium being one of them, are catalogued that facilitate internship and job opportunities for the students.

## **Best Practices 2: The Concept of Community College (CCC).**

### **Objectives:**

1. To create a suitable base for the community in and around the college.
2. To facilitate all kinds of assistance to the youth of the country who are deprived to make a difference.
3. To hone and enhance the latent base of talent of the community.
4. To lessen the gap between the rich and the poor, facilitating socio-political and socio-economic growth of the country.
5. To identify and address the ground level problems that the community suffers from and come up with a problem-solving technique.

**Practice:**

1. Adhering to the vision of college, it organises a number of activities in all its academic sessions that aims to improve the quality of life and living of the society in general.
2. Events such as Job Fair, Blood Donation Camp, NSS and other communitarian services are conducted by the college in order to make a positive shift in the standard of education and living.
3. The college's mission to create scope for accessible education and working opportunities for youth of the country is supported by all staff of the college.
4. The two domains of Shiksha and Rojgaar of the Vedanta Foundation are manifested accordingly through catering to the community.
5. The college has endorsed the opening of Tailoring School for the women of the community, leading the college's vision to fruition.
6. Evening subject classes are provided to school students around the college at a minimal cost.
7. The campus is dedicated to the overall growth and development of the youth per se.
